"I Cedri" is an agro-tourist resort located in Albiano, a warm and sunny hillside directly opposite the beautiful medieval town of Barga, in the northernmost tip of Tuscany. It rises on an area of 40 acres, traditionally cultivated with olive groves and vineyards.

At centre of the estate is situated Villa Mordini, built in 1710 and was the summer home of the Mordini family. Previously a much older home was located on the property, which fell into ruin following a fire. In fact the oldest document that is testimony to the early existence of this property is an deed of purchase stipulated by a certain Notary Martino of Molazzana, on 23 December 1203.

The land was called “ad dongionem” or “the tower”, which gives evidence of the existence of an old warning tower. The current structure of the villa conserves in part this characteristic and can be seen by the embattled tower which overhangs the roof of the house and from which you can admire a beautiful view on the Apuan Alps and the city of Barga.

"I Cedri" is made up of several country accommodations completely restructured with great care using traditional Tuscan material: stone, chestnut wood, traditional handmade terra cotta tile.

On the grounds, between the terraced country fields are three beautiful swimming pools from which one can enjoy a splendid panorama of the underlying valley and the mountains that surround this enchanted place.

There are two different groups of accommodation facilities:
- the “Antica Filanda”, a large stone-faced building, which was once used as a silk factory, where you can find three luxury apartments;
- the “Casa del Rosso” and the “Capanna del Rosso”, which are two farm houses located in a typical Tuscan countryside;

On the grounds, between the terraced country fields are three beautiful infinity swimming pools from which one can enjoy a splendid panorama of the underlying valley and the mountains that surround this enchanted place.

The land, mainly terraced and on a sunny side, is traditionally cultivated with olive groves and vineyards. There is also a small grove of chestnut trees.

Starting from 2006, a project of realising a new 5 acres vineyard started and now the vineyard produces up to 10.000 bottles of wine a year.

The selected cultivar, selected according the peculiar characteristic of our terroir are Syrah for 70% and Merlot and Pinot Noir for the remaining 30%.
At the same time, the wine cellars for the production and the conservation of wine have been completely restored.
The farm is strictly following the organic production procedures.

There are no words to describe the peace, tranquillity and magical serenity that can be experienced in this place, walking among the olive trees, along the antique rows of grape vines or resting in the shade of secular trees.

At “I Cedri” we join respect for tradition, the privacy of our guests along with all the comforts necessary to ensure a pleasing and relaxing holiday.

You will discover places and things that are unknown but at the same time seemingly familiar.

A visit to the old town of Barga, with its art and culture, an excursion on horseback, a bicycle ride, a walk through the vineyard or among the olive and cypress trees, will make you feel in complete harmony with the nature that surrounds you.
At “I Cedri” the accommodation facilities are the following:

**The “Antica Filanda”**

La Filanda is a large stone-faced building, which was once used as a silk factory up to the second half of the eighteenth century and now has been completely restored with care and detail.

Outside there is a large garden area where in the summer it is possible to dine outdoors, enjoying a magnificent view of Barga.

On the first floor there are three spacious and high standard apartments (“Magnolia”, “Camelia” and “Gelsomino”), two of which have two bedrooms, each with bathroom en suite (one with a bathtub, the other with a shower).

A third apartment is larger than the other two having three bedrooms and a more spacious living-dining-kitchen area.

From the apartments, which have all modern comforts, including air conditioning, satellite dish, free wi-fi internet access and so on, the view of the medieval city of Barga is magnificent, especially at night when Barga looks like a fairy tale village with all the city lights.
